

Nischhal Shrestha

Web & Mobile Application Developer

Espoo, Finland | (+358) 442222509 | nischhal3@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Dedicated Web & Mobile Application Developer with a strong foundation in software testing, front-end, and back-end development. Over a year of experience in software testing within the 5G Control Plane, followed by 2 years of professional experience in web development. Proficient in mobile and web technologies, with a focus on delivering high-quality, efficient solutions. Known for problem-solving skills, attention to detail, and collaborative teamwork.

AREA OF EXPERTISE

✓ TypeScript/React	✓ Node.js	✓ Tailwind	✓ Android (Kotlin)
✓ iOS (Swift)	✓ React Native	✓ Unit Test (Jest)	✓ Podman/Docker
✓ Git	✓ PostgreSQL	✓ Jira	✓ Confluence

CAREER HIGHLIGHTS

Feature enhancements: Implemented new functionalities and improved user experience.

Frontend upgrade: Migrated codebase from React to TypeScript for stability and quality.

Backend refactoring: Optimized Node.js code for readability, maintainability, and performance.

Bug fixes: Resolved issues to ensure smooth and reliable performance.

Collaboration: Worked with product owner, manager, and team to ensure efficient delivery.

Documentation: Created clear guides for newly implemented features.

EXPERIENCE

Web Developer & Software Tester | Nokia | 2022 June – 2025 August

- Implemented new features in the product to enhance functionality and improve overall user experience, translating provided designs into React components.
- Troubleshoot and resolved bugs in existing projects to maintain smooth operation and reliable system performance.
- Migrated the codebase from React to TypeScript, strengthening code quality, long-term maintainability, and application stability.
- Collaborate effectively with cross-functional teams to develop and execute personalized user experiences that leveraged internal platform to meet business objectives.
- Authored and maintained documentation for newly implemented features, providing clear guidance for users and developers.
- Created and executed comprehensive test cases, automated 4G/5G software testing, and managed continuous regression, significantly reducing manual effort as Test Engineer Trainee in 5G Control Plane.

Web & Mobile DEVELOPER | METROPOLIA UAS – COURSE WORKS | August 2020 – December 2023

- Collaborated in international teams of 4–5 members to define project objectives, clarify responsibilities, and ensure efficient feature delivery.
- Developed responsive user interfaces and implemented UI views using React, React Native, HTML, CSS, JavaScript, based on Figma designs, ensuring cross-platform compatibility across desktop, tablet, and mobile.
- Developed mobile apps for Android using Kotlin and iOS using Swift.
